Deadline: Rolling

Grant amount: Up to US $50,000,000

Fields of work: Community Development & Revitalization | Economic Services & Development | Disaster Preparedness | Disaster Relief / Humanitarian Aid

Applicant type: Government Entity, Nonprofit, College / University, Indigenous Group

Funding uses: Project / Program, Capital Project

Location of project: United States

Location of residency: United States

Overview:

NOTE: For applications submitted under the Readiness and Implementation Paths, there are no submission deadlines. Applications will be accepted on an ongoing (rolling) basis until the replacement of this FY2025 Disaster NOFO, cancellation of this NOFO, or all available funds have been expended. EDA intends to review applications expeditiously upon receipt of a complete application.

The deadline for applications submitted under the Industry Transformation Path is 5:00 pm Eastern Time on Tuesday, March 3. Industry Transformation applications received after this deadline will not be reviewed or considered.

Through this Disaster NOFO, EDA will award investments in regions experiencing severe economic distress or other economic harm resulting from hurricanes, wildfires, tornadoes, floods, and other natural disasters occurring in calendar years 2023 and 2024. EDA's goal under this NOFO is to assist communities recovering from a disaster by realizing opportunities to recover and change the economic trajectory of the community for the better. In other words, EDA funding seeks to help communities recover and set them on a path to exceed their previous pre-disaster baseline. EDA seeks projects that are responsive to community needs post-disaster by engaging all aspects of the community, with special focus on private industry partners.

This Disaster NOFO provides funding through three pathways:

- Readiness Path – Standalone non-construction projects designed to increase a community's readiness to apply for or implement disaster recovery funding from private and public sources including, but not limited to, future EDA NOFOs and the Implementation or Industry Transformation Paths under this NOFO. Projects will fund strategy development, capacity building, and/or predevelopment costs necessary for future recovery projects.
- Implementation Path – Standalone construction or non-construction projects designed to address the economic challenges faced by a community recovering from a natural disaster and improve economic trajectories beyond pre-disaster economic conditions.
- Industry Transformation Path – Led by a coalition of regional stakeholders, a portfolio of large-scale, multicomponent construction and non-construction projects designed to fundamentally transform the economic trajectory of a region through the development or acceleration of an industry.
